We present the case of a 43-year-old woman with a MRI-visible hypervascular renal tumor. Histology revealed a pure oncocytoma. We emphasize that hypervascular renal masses may be a potential source of intraoperative hemorrhage. The clinical characteristics of hypervascular renal tumors may be misleading and may result in misdiagnosis, as well as inappropriate patient management.Q: How can I insert an image in a table cell of the dataset generated from result of a query? I'm generating a data set from a query, and I want to use one of the fields to show an image. Is it possible to do so? I want to insert the image into my dataset when I call my query. Here's how I build my dataset: Dataset dataset = cxn.prepareDataset(className, method); dataset.add().values("userName").values("email").values("homePhone").values("picture").values("docType").values("serv").values("orgName").values("dayDate"); I just don't know how to use the dataSet.add. A: The add() method takes four parameters in order to put a image in a cell. First 3e33713323
