Capio For Windows

The first and only true out-of-the-box solution to manage all of your paper work electronically. Capio Free Download makes it easy to capture, manage and share paper documents. Capio's clean interface, easy-to-use interface and no technical expertise is required. In fact, Capio only requires minimal configuration, just install, and you're ready to go. Capio also supports your existing scanning, e-mailing and organizing applications. So when a customer calls with questions about an invoice, or Accounting asks for another copy of your expense report, or your boss needs that article about your main competitor - whatever paper document you need, you can find it and send it in seconds. And save yourself time and paper cuts. Capio's search capabilities make finding your documents easy. With a single search term or file name, you can easily find and preview a document. When the document is done previewing, you can file, archive, search and retrieve it in just a few mouse clicks. Capio also has the flexibility to export to virtually any document format including PDF, single- and multi-page TIFF, JPEG, DAT and PCL. Capio is built on the VRS technology standard. This means that Capio works with any scanner and any scanner driver, from virtually any manufacturer. Capio automatically optimizes the settings for a wide range of scanners. When your Capio-enabled scanner is turned on, Capio's VirtualReScan technology instantly scans and saves an electronic copy of the document you're viewing. This means no rescanning or multiple scans are required. The file is perfect every time. When it's time to get the information to your Ascent Capture solution, you can also use Capio to scan the document. With Ascent Capture, Capio allows knowledge workers to capture paper documents for any business process including contracts, expense reports, time cards, or invoices. As soon as they're captured, they're ready to be opened, tagged, processed, and archived. Capio allows knowledge workers to index their own documents and send them to Ascent Capture or their desktop. As a result, they can save significant time and paper. Capio is the first and only true out-of-the-box solution to manage all of your paper work electronically. In addition to capturing documents for personal information management, Capio also integrates seamlessly with Ascent Capture

Capio Free [2022-Latest]

KeyMacro is a multifunctional keyboard macro utility with word processor, spreadsheet and text manipulation capabilities. It can replace the Windows keyboard. It adds functions to the keyboard and emulates mouse clicks for better efficiency. KeyMacro includes a number of "mouse button" tools, such as: - Macro Recording and Playback - Quick Open Files - Shortcut Files - The ability to "right click" the cursor anywhere on the screen. KeyMacro can also emulate mouse clicks, allowing you to interact with other programs in much the same way as if you were using a mouse. This is done by recording keyboard combinations that are used to trigger mouse clicks. KeyMacro is a unique tool that has been engineered specifically for the personal productivity of business users. It can be easily customized and used to replace the keyboard. You can also use it to record and store your favorite keyboard combinations and play them back later. The program provides a quick and easy way to capture your text and images, then save them as files. These files can then be used in the future as paper replacements. Other powerful features include: * Full Unicode support * Customizable Quick Open and Shortcut files * Simple text replacement * Whole word and partial word searches * Markup (Footer, Header, Multiline Footer, Multiline Header, Header/Footer Text Replacement, Cross Reference, Cross Reference Text Replacement) * Text editing * Help for new users and a Step by Step help system for all features * Easy to navigate user interface * Extensive help with tips and video tutorial on all features * A simple, step by step set up process for both new and advanced users * A built in support tool * Customizable date and time stamps * Powerful text editor * Easy to copy and paste * Undo and Redo * File Handling * Image file support * Export to Word and Excel files * Auto Saves * The ability to add a keyboard trigger for other programs (to replace a mouse click) * Support for Mac OS X * Multi-language support * Freeware, Windows 98 and Windows 2000 compatible Requirements: 1. Windows 98/2000/XP/Vista 32 or 64 bit 2. 1 GB of RAM and 50 MB of free disk space KeyMacro Homepage - End User Licensing Agreement This End 77a5ca646e

Capio For Windows

Capio enables users to quickly capture paper documents and PDF files, organize them into folders, and then easily find, send or retrieve them again later. Capio can capture paper documents or PDF files using the original document or a document copy. Capio captures and extracts information, text, and graphics from the scanned image. Capio's easy-to-use interface allows users to quickly scan and organize their paper documents in seconds. Users can also quickly send a scan to an Ascent Capture archive or to another email account or to a server for remote scanning. Capio is built on the same proven technology behind Kofax's successful ScanSnap line of products and Ascent Capture. Capio helps users transform their paper documents into electronic files. Capio can quickly capture paper documents, PDF files, TIFF and JPEG images. Capio's VRS technology captures images that are as sharp and clean as originals. Capio's scanning features include Auto Brightness and Auto Contrast. Capio also allows users to access images in a variety of formats, including JPEG, TIFF, and PDF files. Capio can be easily integrated with Ascent Capture, a commercial archive, or even with mail or a desktop notification system. Capio can be installed quickly and requires no technical expertise. It is available as a simple license, allowing users to deploy Capio on up to 5 PCs. Ascent Capture and Capio Integration Ascent Capture integration with Capio makes it easy to launch a document capture process. Capio is the first personal capture solution that integrates with Ascent Capture. The integration allows users to capture a document on a scanner, have it automatically indexed into a knowledge base or archive, and send the archived document to email or to a computer for archiving. Capio is a high-performance document capture solution that allows users to transform their paper documents into a searchable electronic format. Capio is the first personal capture solution to integrate with Ascent Capture, the world's #1 business information capture platform. The integration between Capio and Ascent Capture ensures that users can automatically index and archive their documents and preserve a version history of an original document. Capio allows users to capture a paper document, send it to Ascent Capture or a remote location for a virtual scan, and then automatically create an index that serves as a searchable archive. Capio can be used with or without Ascent Capture. Capio is also compatible with other Kofax and Onyx mobile solutions such as WORD to PDF and PDF

What's New In Capio?

Paperless offices are a concept, but a dream. The reality is that you need to deal with paper documents everyday. You've heard it said that we live in an electronic age, but paper still fills your desktop and overflows your file cabinets. You keep hardcopies of signed work orders, completed insurance papers, handwritten notes, checks and so on. Sometimes you even file them. But finding them again later means digging through drawers, folders and piles on your desk. The search is tedious and often unsuccessful. And if you do find the documents, sharing them involves copying, faxing or "snail mailing" them. A desktop scanner can help solve your paper problem, but a real solution requires more than a piece of hardware. And most "out of the box" personal scanning software isn't up to the task. What you need is a simple but professional-strength solution that lets you easily capture your personal paper documents in an electronic format, logically file them on your PC and easily retrieve them again later with just a few keystrokes. Enter Capio. Designed specifically for the personal productivity of business users, Capio can help you to manage your work files by capturing and organizing paper documents as high-quality PDF files. Searching for your documents takes just seconds and sharing them through e-mail is a breeze. Capio uses VRS (VirtualReScan) - the de facto standard for scanning productivity - to guarantee the best image quality without rescanning or tinkering with settings. Capio even gives you the ability to edit an image long after you scanned it. You can correct the brightness and contrast of an image, or clip out an area of an electronic document. All from a single screen. Capio's clear, simple interface makes it one of the easiest personal capture solutions on the market. It lets you decide the best way to manage your filing system. And it requires no technical expertise or IT assistance to install, set up and support. So when a customer calls with questions about an invoice, or Accounting asks for another copy of your expense report, or your boss needs that article about your main competitor - whatever paper document you need, you can find it and send it in seconds. And save yourself time and paper cuts. In addition to capturing documents for personal information management, Capio also integrates seamlessly with Ascent Capture, the world's most popular information capture platform. By combining Capio with Ascent, larger organizations can enable knowledge workers in remote locations to easily capture transactional documents to launch a business process or populate an archive. Here are some key features of "Capio":  First professional-strength, personal document capture and management solution  True "out of the box" solution: simple to install, requires no configuration or IT expertise  Allows knowledge workers to index their own documents and send them to Ascent Capture or
