RingCraft RingCraft is a motorcycle themed action-adventure released in 1999 by Gameloft. This simulation and RPG motorcycle game was originally released in Japanese only. Players assume the role of a biker, with the objective of unlocking the mystery surrounding the disappearance of a friend. RingCraft is one of the few games known to exist which allow the choice of two languages. The English version, RingCraft: Justice, was used in North America and Japan. The Japanese version, RingCraft: Revanche, was used in both Japanese and the rest of the world. The GBA version of RingCraft, RingCraft: Dragon's Rage, uses English. Reception RingCraft was the best selling game in Europe in its first week of release. It was also the most popular GPS title in the UK.
